GREAT SAVING IN DRESSMAKING.

Mrs. Curtis' First Premium Models.

MY THEM A LADY CAN, IN A FEW minutes, shape any article of wearing apparel, including the GORED DRESS, BASQUINE. SACK, POSTILLION, ZOUAVE, GIRDLE, APRON, PANTALOONS, VEST, &c., to fit perfectly without trying on.

The System is Mathematically perfect, hence it removes all anxiety regarding the fit of a Dress. There will be no ALTERING—no TAKING UP or LETTING OUT, which not only injures the material but destroys the proportions and often ruins the Dress. It is not only exact, but so clear and simple that any person can learn in an hour out any garment.

How many ladies of limited means could dress better could they SAVE THE PRICE OF THE MAKING OF A DRESS, which they can do by the use of these MODELS; and how much uscless anxiety would be saved by the wealthy and most fastidious were they certain that the dress being made would fit to please them. A Curious Fish .- We had yesterday an opportunity of inspecting one of the most extraordinary members of the finny order which we have yet seen on this coast, so prolific in objects interesting to naturalists. This fish is 4 feet 3 inches in length, and of the almost uniform thickness of the arm. The skin is smooth and glistens with iridescent hues of silver and gold, the dark hazel back and raised medial line standing forth in striking contrast to the pale silver tint of the rest of the body. The ventral fins are silvery tipped with black, and placed behind the abdomen, and the anal fine are of a greenish silvery hue. The tail is black,

Bombardment of Callao.

Full and Interesting Particulars.

The following highly interesting description of the recent attack on Callao, and the gallant defeat of the Spanish fleet by the eruvians, which is taken from the Panama Star and Herald, will be perused with much interest :-

The United States flag ship Vanderbilt and The United States hag snp Vanderbill and monitor Monadnock arrived in the harbor of Panama on the evening of the 12th inst., having sailed from Callao on the 3d.

By these vessels we have the news of the result of the bombardment of Callao.

The 1st of May, the day the attack was expected, proved unfavorable, the weather being hazy, with patches of thick fog, which frequently what out the view of phices at the

being hazy, with patches of thick fog, which frequently shut out the view of objects at a distance less than that on which the vessels were expected to engage the batteries.

The day following, May 2d, was hazy, but without log or anything to prevent the promised bombardment. The Spanish fleet had been preparing for the fight; topmasts and lower yards were sent down, and, in fact, everything aloft that could be shot away, and that might create injury or confusion by falling on deck was removed, leafusion by falling on deck was removed, leaving only the hulls, lower masts, and rigging

as a mark for the enemy.

About 11 o'clock a.m., a signal was made from the Numancia (flag ship) to get under way, which was soon after done, and some time was taken in arranging the lines of attack, which were in two columns, three of attack, which were in two columns, three ships being in the one to engage the batteries north of Callao, and three those west of the city; the Vencedora taking position between the two lines, in order to render assistance in the event of any of the ships being disabled by the enemy's fire. The ships of the northern line fought the batteries heading to the southward and westward, or with their port broadside; while the others headed to the castward and northothers headed to the eastward and northward, and used their starboard broadsides. westward of the city, which was at once re-plied to by the Numancia, and in five min-utes afterwards the whole line was engaged, both north and south.

Indeed it is thought that they have not ammunition enough to make another attempt, and it is very certain that in the way of shell they are deficient, for in the action solid shot was the principal projectile used against the Peruvians; had they possessed shell, the effect might have been very different.

It is hard to surmise what the future intentions of the Spaniards are; the squadron has been badly defeated, and in a great measure used up. They have no point to

has been badly defeated, and in a groat measure used up. They have no point to fall back upon, no base of operation; and with their distance from home, it may, and possibly will be determined upon, to give up, the contest and quit the coast. This is surmise only, however, for the next mail may bring different news; but one thing is certain, that victory was for the Peruvians, and a glorious one; for they were not only uncertain what the results would be, but the majority of those not interested, thought that notwithstanding their heavy guns, they notwithstanding their heavy guns, they would be unable to bear the fire of the broadsides of the heavy Spanish frigates, especially so as their guns were *en barbette*, and the gunners exposed to the shower of shot that w-s rained upon them hour after hour with

THE BEAUTY OF CHILDREN.

A WORD TO MOTHERS.

There is no object in the world more pleasant to look upon than a beautiful child. Even the crustiest of old bachelors must acknowledge this in his heart, however disapointment may have soured his temper. Unfortunately, however, the freshness and natural bloom of childhood are often marred by disfiguring disorders. Sometimes we see youthful faces blemished with fiery circles, and looking as if disease had been at work the property of the property of

reputation throughout the world for his ex-ternal and internal remedies, that his name must, of course, be familiar to all our rea-ders; but after all, there is no harm in giving point and force to general commendamorning, should the attack have been renewed. At first they were uncertain as to what would be the result, but having proved to the satisfaction of all, their ability to keep the spanish ships at a distance and beat them off, they were far stronger on the second day, than when the fight first commenced. It may be well here to say that the Peruvian ironelads, Loa and Victoria, together with three small wooden gunboats, cames unknown took an active part in the fight and did very good service, especially the two former. The three eight-inch guns with which they were mounted, telling well against the wooden sides of the Spanish ships.

When the Vanderbilt sailed from Callao, permanent place in her nursery cluset for some time to come. HOLLOWAY'S

Mervous Disorders.

Whatis more tearint than a breaking down of the nervous system? To be excitable or nervous in a small degree is mest distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get alithe fresh air you can; take three or four of the Fills every injul; eat plonty of solids, and avoid the use of slope. If these golden rulesses followed, you will be happy in must, strong in body, and forget you have any nerved.

Mothers and Daughters If there is one thing more than another joiwhich hese Pills are so tamous, it is their purifying porties, especially their power of cleansing the blood from all impurities, and removing dangerous, and enewing supended secretions. Universally adopted as the one grand remely for female complaints these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

Disorders of the kidneys.

In all diseases affecting these organs, whether they be afficied with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Olument should be according to the printed directions, and the Olument should be according to the printed directions, and the Olument should be according to the printed directions, and the Olument should be allowed the printed directions and the printed directions are allowed to the printed directions. No medicine will so steetually improve the ton of the atomach as these Pills; they remove all and tive, coasioned either by intemperance or improve diet. They reach the liver, and reduce it to healthy action; they are wonderfully efficacious it cases of spasm—in fact they never fall in ouring all disorders of the liver and atomach. Bronchitis, Dipthoria, Coughs and Colds No discusses are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of the burnied breathing, and enable the windpipe and lungs to perform their functions with case and regularity. These Pills, by their purifying powers of cause the brood from all impurities and thurther the properties of the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions In cases of debility, languor, and nervousness generated by excess of any kind, whether mental chyloside in the effect of these Hills is in the highest degree bracing, renovating and restorative. BRITISH PERIODICALS.

The London Quarterly Review (Conservative.) The Edinburgh Review (Whig)

The Westminster Review (Radical.) The North British Review Free Church -AND-

The four Reviews re-published by Messrs, Scott & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person was soon yet; very for behind times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and

party.

The Blackwood is unusually attractive at this time, to Americans not only for its scrial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a Gorman officer, chief-of-staff to Gon. J. E. B. Stuart, of the Confederate

GOLD MINES.

British Columbia

The Safest, the Shortest and the Cheapest Route to these rich Placer

Mines is by way of Victoria, Vancouver Island.

Passengers going this way have not to cross the dangerous Columbia River Bar, and the distance is over One-Third-or 279 Miles—Shorter by way of Victoria than by way of Portland.

The Governments of Vancouver Island and British Columbia have subsidised the followng powerful steamers to carry miners from San Francisco to Victoria and New Westminster direct :-

The Hudson Bay Co.'s Stm. Labou c hee, Capt. Mouat.

The Cal. S. N. Co.'s Stm. Active, Capt Thon.

These, or other first-class steamers, will run on this route regularly, and will connect at Victoria with swift River steamers carrying passengers to Yale, a distance of 175 miles. From Yale to Savana Ferry, a distance of 133 miles, there is a splendid Government Wagon Road and Comfortable way-side Subscribers may obtain the Reprints immediate by preceding 1866, as follows, viz:

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered atomach is often the first index of renal irregular

discares afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their-healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAY'S OLITMENT—Wounds, Scalds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this Olitment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and never long tortues the little sufferer, whose very cry excites each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed unrisery. The Ointment is applicable to any ore, whatever its character, It conducts to health as sure as the compass points to the north.

HOLLOWAY'S OINTMENT AND PILLS—These potent renedies constitute a materia medica in themselves, for there is no i ternal or external disorder cont.ollable by met_ine for which the one or the other of them is not a positive remedy—eruptions, tumors, scrofula, scurvy, cancer, sathma, rheumatism, gout, and dropsy cultrely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick lieadache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astouishing results imaginable. The student of Nature knows how simple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

HOLLOWAY'S OITMENT AND PILLS—Acute

the simplicity of Nature.

HOLLOWAY'S CINTMENT AND PILLS—Acute Rheumatism. In all severe pains in the joints and muscles, atter due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the frecirculation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happies, effect in assisting the Cintment.

HOLLOWAY'S CINTMENT AND PILLS—Palpitation, Shortness of Breath, Propsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cire be resorted to. In Holloway's unrivalled O atment and Pills' the dropsical patient will ever in a succour; the present relief derived from the see of these remedies is marvellously quick, and perseverance in the steady application of this nuble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system that the dropsical fluid vanishes, and the sufferentians all the oppressive symptoms daily decline, till HOLLOWAY OINTMENT AND PILLS.—Fistu las, Piles, Excoriations, and Strictures, are sneedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excorlations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.
